**Team members are professional, customer-oriented, conscientious, and always willing to serve.**

# Company Purpose

## Problem Worth Solving

In an effort to mitigate the risk of domestic burglary, many individuals rely on burglar alarms. However, research has indicated that a significant portion of burglary signals, approximately 80%, are triggered by false alarms. This raises concerns about the effectiveness of these alarm systems.

## Our Solution

Gadz View Technology LLC offers cutting-edge solutions that empower users to accurately identify the triggers behind alarm events. Our advanced security systems leverage the power of Deep Learning AI to develop proactive measures that prevent potential threats. With our state-of-the-art technology, we enable swift video analysis and search capabilities, facial recognition, real-time alert notifications, and comprehensive video analytics.
